

BLUMSAFE

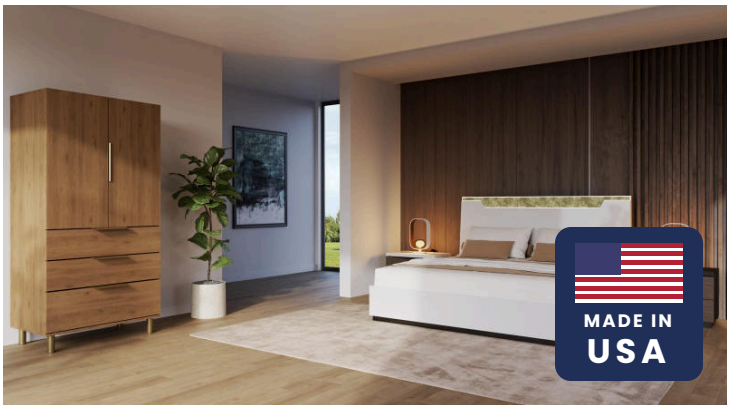

Secure Armoire

Furniture with a built-in hidden safe.
No wall cutting required.

Built to order in the USA

Clothing Storage AND a BlumSafe, in the Same Floor Space

It looks like a beautifully made bedroom armoire: tall doors on top, three drawers below. Open a door and a fully equipped BlumSafe sits inside, ready for watches, jewelry, firearms and other valuables. It is the full BlumSafe experience, built into a piece of furniture.

Fits modern and transitional interiors. Clean lines that sit easily with the furniture already in the room.

Customized to fit your home. Color-matched to existing furniture and woods, with changes to handles and drawer features. Like buying a custom piece of furniture.

Features and Benefits:

- Built to order by Amish craftsmen in Ohio from American hardwoods, with dovetailed drawers
- One or two BlumSafes inside: Steel Door, our patented Display Door with optional Smart Glass, or Professional Junior (not available with the concealment shelf unit)
- Optional concealment shelf unit on hinges hides the safe completely; it opens with a magnetic key
- Opposite the safe: a hanging clothing bar or adjustable shelves
- Three full-depth drawers; the top drawer accepts our Watch Winder Drawer Insert
- Dark maple, cherry, walnut, painted black or painted white, with three hardware finishes and wood legs or a plinth base

The Secure Armoire: The full BlumSafe experience, no wall required.

Dimensions and Specifications:

- **Armoire:** 44"W × 22½"D × 78"H with legs (75"H with plinth base)
- **BlumSafe interior:** 14"W × 26.5"H × 7.125"D
- **Locking:** fingerprint, keypad code or backup key
- **Capacity:** up to 12 watch winders per safe, or jewelry drawers, display shelves and storage
- **Power:** one plug-in adapter; cord routes through a pre-cut opening to a standard outlet
- **Delivery:** by truck, fully assembled; white glove service available
- **Lead time:** typically 8–10 weeks; custom finishes may take longer
- **Warranty:** 5 years on the BlumSafe, 1 year on the furniture
- **Made in:** armoire in Ohio; BlumSafe in North Carolina

Doors closed, it is simply a fine piece of bedroom furniture.

Doors open, it is a BlumSafe.

Secure, concealed storage that works in rooms where a wall safe can't:

Bedrooms and Dressing Rooms: Watches, jewelry, cash, handguns and documents right where you dress.

Condos, Rentals and Second Homes: Secure storage without touching the walls, and it moves when your clients do.

Designers and Builders: Arrives finished and ready to place, with no framing or construction on the job.
