BLUMSAFE

# Watch Winder Drawer Insert

Wind your watches properly when the drawer is closed

**U.S. Patent Pending · Made in the USA**

## For Watch Collectors: There Is Nothing Else Like It

No room for a BlumSafe? Our Watch Winder Drawer Insert lets you keep your watches in a drawer and keep them wound. The catch: watches need to sit close to 90° to wind properly, and at that angle you can't see them when the drawer is open. Our Drawer Insert solves this. Open the drawer and a servo tilts the winders to a 60° viewing angle. Close it, and they return to 90° for winding.

### Features and Benefits:

- Custom hardwood drawer insert paired with premium BOXY® watch winders, made in the USA
- Patent-pending servo tilt: 90° when closed for winding, 60° when open for viewing
- Single-row option for 3, 4, 5 or 6 winders in drawers 11" deep
- Two-row option for 6, 8 or 10 winders in drawers 18" deep
- Fits any drawer with at least 5½" of internal height
- Each BOXY® winder is individually programmable for turns per day and direction, and removable for service
- Maple, walnut or mahogany standard; white oak, black or white available; custom finishes to match cabinetry
- About 20 minutes to install, all hardware included; the base screws to the drawer side
- Low-power magnetic switch senses the drawer opening; AC power required
- A value-added lifestyle and security upgrade for your clients

# Turn a Drawer Into a Showcase, and a Vault for Time.

**Dimensions and Specifications:**

- **Single row (11" min. drawer depth):** 3 winders 16"W · 4 winders 20"W · 5 winders 24"W · 6 winders 28"W
- **Two rows (18" min. drawer depth):** 6 winders 16"W · 8 winders 20"W · 10 winders 24"W
- **Height:** 5½" minimum internal drawer height, all configurations
- **BOXY® winder, each:** 97 × 104 × 110 mm (3.75 × 4 × 4.5")
- **Power:** AC adapter; one cord exits the back of the drawer to an outlet or the cabinet base
- **Finish:** maple, walnut or mahogany standard; white oak, black or white; custom woods on request
- **Installation:** about 20 minutes, all hardware included
- **Warranty:** 2 years
- **Made in:** Ohio, USA.

A lifestyle upgrade for watch collectors, and a win for designers, cabinet makers and builders:

**Master Closets and Dressing Rooms:** Tuck a winder bay into the island drawer. Watches stay wound, dust-free and out of sight.

**Bedroom Dressers and Vanities:** Turn an everyday drawer into a luxury watch experience.

**Custom Cabinetry, Yachts and Aircraft:** A discreet, premium upgrade worthy of high-end millwork.

**Commercial Display:** Watch and jewelry retailers can show running watches behind locking drawers.

## See it in motion.

Scan to watch the servo tilt the winders as the drawer opens and closes.
